

Max G. Crosby
CONSTRUCTION COMPANY, INC.

“OUR GOAL has always been to offer a quality product to the consumer. We fully realize that the greatest asset a construction company can have is a good reputation.”

“ WE WANT people to feel they can sign a contract with us, leave town for six or eight months and come back feeling that during the time they were gone, everything was done properly, efficiently and the way they wanted it.”

- Max Crosby

AS CUSTOM BUILDERS, we are responsible for constructing piece by piece, the result of an individual's life long ambitions and visions. We consider it our honor and duty to construct a home for our clients efficiently and of an unmatched quality.

- Statement of Philosophy, Max G. Crosby Construction Company, Inc.

Craftsmanship

Max G. Crosby Construction Company builds an average of ten to fifteen custom homes a year, and operates a commercial building division. Attention to detail is the hallmark of a Crosby home.

Southern Living magazine selected Max Crosby to be a member of its Custom Home Builder Program based on the company's stellar reputation among local consumers, strength of presence in its respective market, superior quality, and attention to detail, innovative style, among other criteria. Max has been a charter member since 1993 and member of the Board since 1994. The "premiere" *Southern Living* plan was built and featured in the August 1994 Parade of Homes and awarded "Best Product Design." Max Crosby Construction was selected as the exclusive builder for the 2006 *Southern Living* Idea House in Charleston, SC.

Service

The men have achieved all of this building success without forsaking the values and philosophies that the company holds dear—and that keeps their clients returning.

Max Crosby knows that construction is more than building houses; it is also building client relationships. The company's highest possible standards for customer satisfaction are unsurpassed.

Satisfaction

"Max Crosby is the only person we've ever worked with in building a house, and he would be our choice again. We're very satisfied here."
- David and Jane Rowell, Currently in their second Max Crosby home

Honesty & Integrity

"The house is what we dreamed. He came up with excellent suggestions that the architect had overlooked, small details we felt enhanced the house. If we ever build a house again, even if it is not in this area, I would have him come out and do it. It was a pleasure building the house, and that is because of Max. This was our first experience, and we are spoiled."
- Ross and Peggy Ahnholz

Professionalism

"Max never cut his ties with us; that was one great plus about him. When he walked away from the job, I was always able to get him back if I found something that I had not included on the original punch list. He was willing to come back. He backed up his work. I'd have him build another house for us. As a matter of fact, we had him put an addition on the house two years after we moved in."
- Terry Newby

Experience

MAX G. CROSBY, CHAIRMAN – CHIEF EXECUTIVE OFFICER

A native Charlestonian, Max Crosby began building homes in Charleston in 1977. He served as president and charter member of the Charleston Trident Homebuilders Association, Master Custom Builder Council, and past recipient of the Charleston Metro Chamber of Commerce's Trident Outstanding Performance award. Max has served on the Board of Directors of the Charleston Trident Home Builders Association and was selected the 1994 "Builder of the Year" by the Association.

JAMISON HOWARD, PRESIDENT

Jamison Howard graduated from the College of Charleston and joined the company in 2000, while pursuing a master's degree in architecture from the Savannah College of Art and Design. Emphasizing each other's strengths, Max and Jamison have developed more than a partnership. They have built a synergy, which has enabled the company to grow exponentially.

KENNETH MILLER, VICE PRESIDENT

Kenneth Miller holds a master's degree in architecture from the Savannah College of Art and Design. Perhaps more importantly, Kenneth possesses a natural talent in architecture. He is responsible for much of the design process, including permit acquisition and conceptual drawings.
